

# How healthy is my relationship?

Following are two lists, one of healthy relationship characteristics and one of unhealthy traits. Many relationships have a combination of both. The point of this exercise is to figure out what things in your relationship are healthy or unhealthy, so you can gain appreciation for the best things and decide what you want to change. Read both lists, and check the heart next to every statement that is true about your relationship.

I am evaluating my relationship with:

<p><b>Is it healthy?</b> Check the heart if you and this person...</p>	<p><b>Is it unhealthy?</b> Check the heart if one of you...</p>
